ASTROZORA: THE DAY OF MERCURY

BY NEDDA MAGIC ADVISOR

*"TRUST YOUR HEART IF THE SEAS CATCH FIRE, LIVE BY LOVE THOUGH THE STARS WALK BACKWARD."
/ E.E. CUMMINGS /*

THIS IS A RETROGRADE TIME WHEN 5 PLANETS ARE MOVING APPARENTLY "BACKWARD". THIS MEANS THAT THE EARTH AND THE PLANETS ARE MOVING WITH A DIFFERENT SPEED, SO SEEMINGLY PLANETS ARE MOVING REVERSE. RETROGRADE TIMES ALWAYS MEAN 'REPEAT AND SLOW DOWN'. THEY ARE OFTEN CONSIDERED AS DISADVANTAGEOUS PERIODS, BUT I SEE THESE PHASES AS OPPORTUNITIES TO REDO/RETHINK. MARS, SATURN, NEPTUNE, PLUTO AND MERCURY ARE ALL MOVING IN RETROGRADE MOTION. PLANETS AFFECT DIFFERENT LIFE AREAS, IT IS LIKE THE MOON AND THE TIDES, JUST IN A DIFFERENT MANIFESTATION. MERCURY IS RESPONSIBLE FOR COMMUNICATION AND TRANSPORTATION, EVERYDAY ROUTINES. SATURN, THE LORD OF TIME HELPS US FIND OUR LIMITS AND HE IS RESTRICTIVE. THIS IS THE WAY IN WHICH HE MOTIVATES US TO CHANGE AND LET GO. NEPTUNE IS THE WORLD OF DREAMS, ILLUSIONS, INSPIRATION AND CONFUSION. PLUTO IS A DISMANTLER, HE MAKES US TRANSFORM, REGENERATE AND BE REBORN. RETROGRADES OFTEN BRING SOME THOUGHTS OR EVENTS FROM THE PAST TO THE SURFACE. YOU CAN FEEL KIND OF STUCK, NOT ABLE TO MOVE FORWARD WITH SOME THINGS. DON'T WORRY, AND DON'T HURRY! TIME IS A BIG TEACHER; WE ALL NEED TO RESPECT THE MYSTERIOUS WAYS IT WORKS IN. AND WE NEED TO BELIEVE THAT THINGS AND TIME HAS TO MELLOW TO GET THE BEST RESULTS.

MARS AND SUN OPPOSITION IS OVER FROM TODAY, OUR DRIVE TO ACHIEVE AND TO COMPLETE WILL SUBSIDE A BIT. IT IS NOT THAT WHAT WE FEEL AND WANT STRONGLY WILL DISAPPEAR, BUT THERE WILL BE RELIEF. IT IS MUCH EASIER TO SEE CLEARLY NOW, AND ACT WITH A COOLER ATTITUDE. VENUS IN VIRGO TRINE PLUTO IN CAPRICORN IS OVER TODAY. A TRINE IS ALWAYS A FIERY ENERGY, THIS TIME A CREATING FIRE WHICH WAS AFFECTING OUR RELATIONSHIPS. TRANSFORMATION IS IN FOCUS NOW, RETROGRADES ARE ALSO ASSURING US THAT THE CHANGE WE ARE MAKING NOW WILL BE CONSEQUENT. THE PROCESS IS ALREADY HAPPENING, LET IT FLOW!

I'M CSISZOLING WITH MAZZI AT THE SAME TABLE

DEAR ALL! FIREWORKS ARE NOT FUN, FOR DOGS AND DOG OWNERS ESPECIALLY! PLEASE TRY TO THINK OF YOUR FELLOW OZORIANS AND DO NOT LIGHT ANY!

INEXPLICABLE BONDS

INTERCONNECTION IN THE QUANTUM WORLD

Have you ever woken up in the middle of the night and felt like you knew exactly that something was happening to your loved one? Have you ever felt in your own body the very state of another person despite the great distance separating you? It seems that there exists a thread between certain people that provides a connection between them beyond their five senses. This bond between two souls is called the golden thread in mythology, but is there an explanation to this phenomenon that is rooted in reality? It has been many years now since I heard about an experiment that left me wondering ever since and which suggests that the answer to that question is yes.

It is a fact, that our body consists of the same atoms as the particles observed in isolated laboratory conditions, therefore, it seems totally legitimate to assume that the same quantum mechanical effects apply both to the entire body of our atoms and the minute subjects of quantum experiments.

In the fascinating world of quantum mechanics this phenomenon is called entanglement. The crux of this occurrence is that no matter the distance between two observed objects, when a change occurs in the state of one, the state of the other changes too, immediately, as if oddly they were aware of each other's condition. However, there is no apparent connection between them, whatsoever. They "simply" know.

I wonder, can Alice ever get deep enough in the rabbit hole to discover these unique aspects of the human consciousness?

NEWS 'N' DIGEST

MOBY DICK DAY

Born today in 1891, Herman Melville, American novelist, father of Moby Dick, drew on his experiences at sea, just as we draw on our experiences on our individual seas of life, as we strive to grow and fulfill our potentials. Two things we can keep in mind, while we journey on in this existence, and which will definitely come in handy, is to take it easy and with a pinch of humor at all times... Because as Melville put it:

"There are certain queer times and occasions in this strange mixed affair we call life when a man takes this whole universe for a vast practical joke, though the wit thereof he but dimly discerns, and more than suspects that the joke is at nobody's expense but his own." And the other..."We cannot live only for ourselves. A thousand fibers connect us with our fellow men."

WISDOM ELDERS' ZEN

A visitor came to Master Nanin to ask him about the teachings of Zen. However, instead of listening, he did not stop talking about his own understanding. After a while, Nanin served tea. He filled his guest's cup but continued pouring even after that. Eventually the guest could not help it: "Can't you see that it is already filled up?" asked he, "nothing more can go in." "Exactly," answered Nanin and finally stopped pouring, "just like this cup you are filled up with your own ideas. How can you expect me to tell you about the teachings of Zen if you do not offer me an empty cup?"

One of the Ozorian Prophet's dreams is to serve as a platform for all our tribe, to connect and represent the voices of us all, to spread our multicultural richness, and especially messages of peace, light, and above all, love. So when Heron Yovanna contacted us with a very special request, we were very enthusiastic to help her in her mission to give a very special surprise to a very special person, it seems, because this is for you, BEN! We all wish you a very happy 30th and much more to come:)

HAPPY BIRTHDAY!

Koh Phangan, 2013 lying on the beach, getting to know each other, I remember looking into your eyes, and seeing the secret of the universe... I had a sensation of wholeness and happiness that invaded my whole body, there were no words... you took me in your arms and at that same moment, I knew you were the one I was looking for. Then you said to me, you are my gift, my gift sent from the universe. it was then the message and the confirmation of the beginning of our journey together.

I agree with everyone else, it is hard to say in a few lines how wonderful of a person you are. I want to tell you, my love, that you have inspired me to love life and have shown me how to feel free. You are gentle, genuine and such a caring and loving person. I admire your dedication and your commitment to everything you do. I love your simplicity and your unconditional nature, accepting everything that surrounds you. We have traveled the world, we enjoy the simple things in life, you are my friend, my lover, my family, my teacher, and my only true love. The only thing that you have that nobody else has is you, your voice, your mind, your story, your vision. So write and draw and build and play and dance and live as only you can, because you deserve it my soul. Happy Birthday! Te Amo

My soul elevator, ME

People, places, memories... so much to say! Yesterday we met and never quit. Today you're still our number one rum lover muscles man and I'm sure tomorrow will be on a high level as well! Happy 30 years, old man. We love you a lot, you're a really beautiful person that lights our lives with your smile and your good vibes. You're part of our family. Big kisses from Erik, Sophie, Naya and Maïli.

RAVE FAMILY

PS: "Tonton Ben, you are my favorite tonton, but don't tell it to the others."

NAYA

Happy birthday my Ben! It will be more than twenty years that we've known each other and have become friends with time. We have grown and evolved and it is a real pleasure to have continued to trip together all these years. Thank you for your kindness, your openness, your sincerity and the good energy that you give to the people you love. A memory among the hundreds: the famous Electro Alternative party in Toulouse. What a happiness! Poutou, my Ben. I wish you a life full of love and happiness!

ANTO

I still remember the first time I met Ben. It was at the best guest house in the world, the Mekong Bamboo House in Kampong Cham (Cambodia). He told me he will join some friends soon in the jungle to have a wild experience... so I instantly liked him. Then he said he was traveling without any guides because they bring all the tourists to the same place. I was thinking "ho my god this guy is soooo coooool", he is a real traveler, I want to travel the same way. Then he tells me one of the funniest stories ever, when he got cheated in Malaysia

playing poker, (if you don't know the story run to him and ask ! You will laugh like you never did before). Telling me this story he was putting himself in a vulnerable position since it was the first time we met. Usually, everyone is trying to show off and trying to show the best part of themselves, even if it is just a social mask, you know. But not Ben. He is a true, wise, sincere, funny, creative, authentic and beautiful person. And what a wonderful friend! You can ask any of his friends, we will all say the same, Ben knows how to take care of his friends!

I love you Ben, so happy to know you! See you soon my dear friend, youuuu roooooock!!!

GOPAL

Ben, Ben, Ben... I don't know where to start, there's so much I have to say. It's been 9 years since I've known you. We met through our job, but it is more than that, which brought us closer. I remember you, young adult or old teenager. We were meeting every night just to have fun. At the time I thought you were a "racaille" and then years passed. We never really lost each other. One time, during a big heartache, I understood your generosity when after a simple phone call, you invited me for months, supporting my crying and comforting me. You were my first roommate and I will never forget it. Remember the frenetic dances we had in that flat?. Most would have thought that we were weird. It was also you that "unblocked" my dancing skills. There is a before and an after this famous Hilight Tribe concert. Now, I can be myself in public. This one was followed by so many outstanding parties and concerts. Generosity again, when you asked me to come to work with you. Do you remember when, torn from the day before, we were napping on those billionaire planes king size beds on Saturday morning? It must be difficult for some to imagine. And thanks again for that job. I was able to start traveling again, to live, in fact, and to make my own choices. You helped me understand that I had to live the life I wanted, thanks for that again. The first travel with you: Nepal. What a good choice. I followed you without thinking, I knew it was going to be a good experience. Those 12 days trekking, the 5416m altitude. One of the most intense sport moments of my life. So intense. And the "tea boxes", other more intense moments. So many other moments have followed that I do not have the place to write them down. Nowadays, when we see each other, we always start with the same ritual: clap, clap, oubaouba, pshiii... In short, I can say without hesitation that I LOVE YOU!! Kiss, love, peace forever...

NIKO

Ben!!! Life is giving us one more encounter!!! This time in such a magical place as India! I am super happy to meet you both again and be able to share many moments of happiness! Let's dance and contemplate life until we dig a hole in the ground. Let's celebrate the life and your birthday. Kisses and hugs.

MARINA

Have a good birthday brothersss! I'm so happy to be here with you and with our friends. Really. Enjoy this amazing adventure at OZORA! I'm lucky to have you in my life, love you bro.

MAX

Happy birthday, my titi! I hope you enjoy all the good vibes at Ozora festival for your 30 years! Have fun! I kiss you from France and I love you.

Your little brother, BAPTIST

Well, my friend, we've known each other for 30 years.

10 years of football in the park, "close

fleuri" (me as a defender, you in the middle)

10 years of separation due to the different schools we attended when we were young.

10 years of solid companionship and the birth of a true friendship.

30 years in total. We will write the rest of our stories later, in the meantime, do not change.

SPOTO

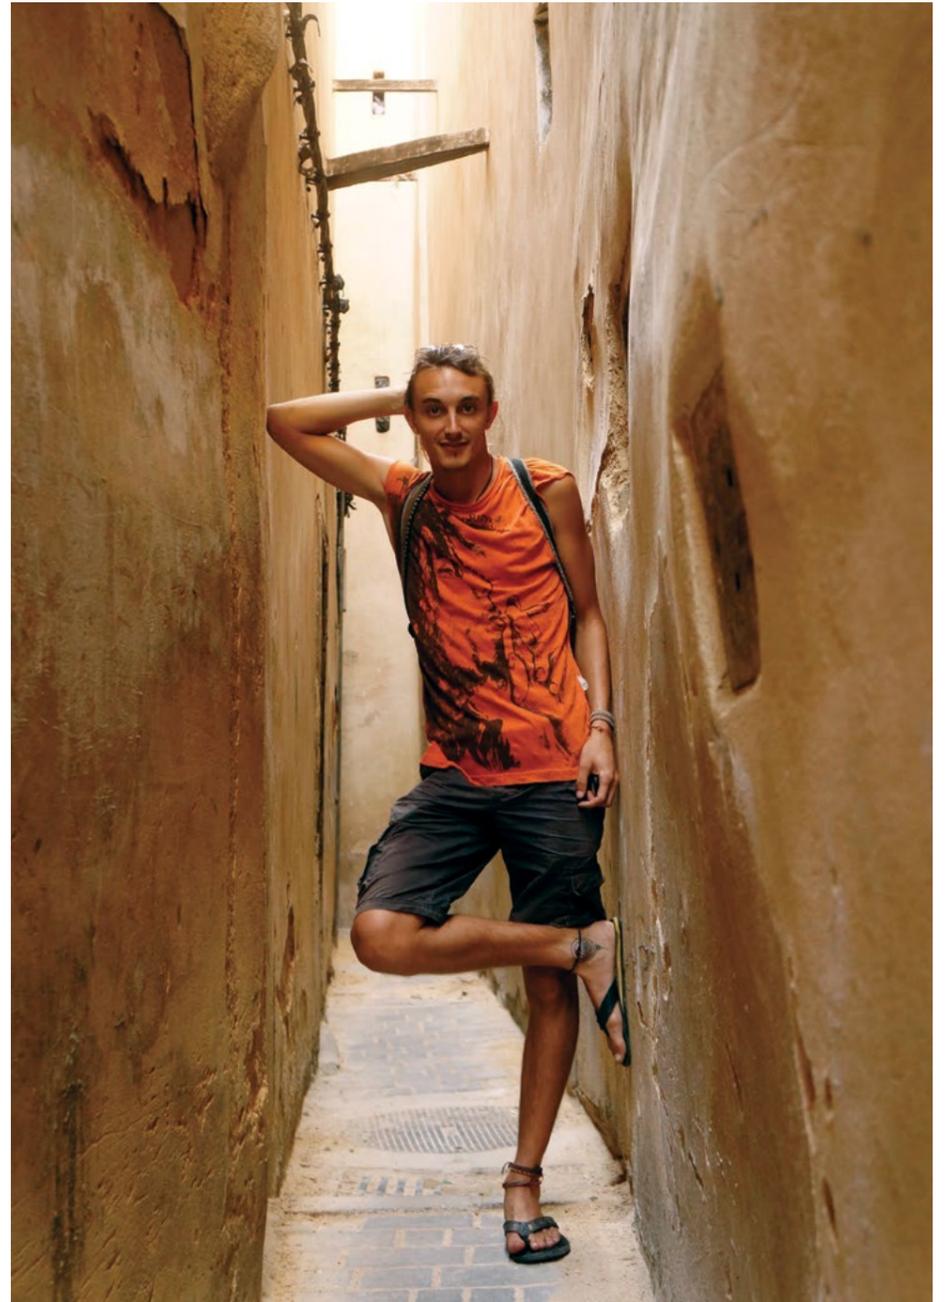

My dear, my titi, my friend, I am far from you during this meeting of people who loves you, but I hide a bit of me in your sarouel hippie pockets to enjoy this festival with you! What to say... Since we sat next to each other in high school, our common memories do not miss! Educational naps in progress, our lit-

heart and we are lucky that we have your friendship with such a kindness. For sure, we could say so much more, but the most important is here in our hearts. Enjoy the festival and we will celebrate when you return home.

Love you, CLEA and CARINE

Once upon a time a couple of friends went around on a little and magical island called Bali! A couple of scooters and a desire to explore! Sleeping on wooden boards or directly on the floor! Few parties with local goods and treats made us very high on life! We went back to the real world and realized it wasn't for us, so we went for more!

Always seeking good times and the endless opportunities that our beautiful world has to offer. Since that trip, you

tle sessions of how high and kebab coffee in my little apartment, all our concerts or festivals, and the Spanish desert in Amsterdam! So Ben, thank you for being in my life, it would not be the same without you, I would certainly be a lot more into myself! I wish you a very happy birthday!!! Enjoy this week at Ozora, and when you come back home we will celebrate again.

BASTIAN

Ahaaaaaah, ahaaah, my friend who passes the bar of the 30s, how beautiful! So many years we've known each other! I'm disappointed not to party with you, but I will be thinking of you. I'm waiting for you after the road trip to celebrate together. Happiness for the rest of your life my Ben! Have a good festival, kiss!

FLO NX

We met in Cambodia for the first time. It was hard to find your little guest house but finally, we found you in paradise. And since then you never quit our friendship. You are an amazing person, talented, loving, caring with a pure

are like a brother to me, and I always look forward to the next place to meet up. Happy birthday, mate!

Abrazo grande, MEDHI

The best thing about growing old is to know what is important and what is not. That's why I know you're a beautiful guy Ben! But age doesn't really matter unless you're a cheese or a bottle of wine, freaky French!! I wish you the most incredible birthday with your tribe, my friend!!

HERVE

How to describe the exceptional, the fabulous? 3 letters: BEN, the friend who has always been with me during all the major stages of my life, always available when things are going wrong, always in to go partying and following me in all my deliriums: the true and deep friendship.

30 years is not the beginning of the end, but the beginning of a new adventure in which I will always be present at your side!!

Love!! SIMON

ARTIBARN

Sounds from the Melting Pot

It brings the often widely different musical worlds and their performers close together in unbound, free form on the festival. Imagine all kinds of improvised jam sessions, transforming completely the world of Artibarn after sunset (21:00). We are about to show you real musical delicacies, you can witness with your eyes and ears a unique and spontaneous process, how different musical styles melt into one, just as the ideas, fantasy and knowledge of the performers on the festival's four stages.

The Wood Vibe Tribe and the Sacred Cat

by mtrxsim

photo by Amit Teach

The masters of wood wizardry are newcomers to the Ozorian art scene, joining us all the way from Canada, for the first time in Europe, bringing their installation art to our magical valley. This collective of wood loving creators consider them-

selves a family dedicated to the mission of inspiring others through education, showing and sharing their skills and the various techniques they use in bringing to life their visions, and especially the magnificence of wood art with the world.

You can find their Cat Chapel near the Mirador, so make sure you see it for yourself. Don't only enjoy it from the outside, but make sure you crawl in and let out the cats hidden inside you, connect with any feline energies you may have, purr yourself into catness or balance out your cattiness. And once inside, discover the trinkets and add some of your own to power up the chapel even more, observe how the walls come alive with a myriad of creatures...

Also, on Thursday morning at 9:00 we will be live and dis-

cussing the black sheep aspect of visionary art with Brad Rhadwood (Wood Whisperer), one of the founders of the Wood Vibe Tribe.

THE PROPHET'S POETRY CALL

One of the Ozorian Prophet's missions is spreading our multicolored subculture, so we announced a poem contest for this year's printed editions. This is one of our tribe's poetic souls, and as it later turned out, he is also one of the artists featured at the Mirador this year, **Jan Luis Gottwald**, synesthetic poet who loves exploring what he calls *poesia* /psychedelic poetry/, and you can see his hybrid stop motion animations here in the valley.

"I's"

I's
 Your I's, I screened.

As many I's there is, there is people.

Defragmented, labeled labyrinths;
 All scattered lonesome Individuals
 Post-neolithic facebook sitters,
 In our selfie love,
 I's disappear.

All of us in love with beauty,
 All still longing for a communal experience, for
 common understanding and appreciation.

All of us waiting for life,
 Which is present at all times,
 In all the I's

I see.

Let your life be your guide.

RAINBOW WARRIOR

LOVE THE FCUK OUT OF YOURSELF TODAY

by Kai Teo

Our sacred Ozora gathering is the easiest place on the planet to fall in love. It could be a brotherly, sisterly camaraderie, a teacher-student relationship, a deep romance, a exploration of your sexuality, or your love for Mother Nature. The channels where we can project our overflowing love are endless.

Of course, that little pink Mitsubishi that you popped an hour ago might have elevated this experience. But hey, doesn't mean that the feeling is fake. It just means that the blockage that we've always put up have been removed temporarily. So, trust it.

Loving yourself is loving the universe. Even Ru Paul said, "If you can't love yourself, how the hell you gonna love somebody else?" Every single living being, every single atom,

every single particle, is a consciously chosen expression of the universe. Yes, you are the feuking universe choosing to experience itself through this physical body of yours. This body, this mind, my friend, is what we call the ego.

When we describe ourselves, we usually are describing our ego. When we say, "I love the way you talk about the trees and Nature," we are describing someone's ego. And that's perfectly beautiful. The reason why all of us are unique is because the infinite universe is thirsty for new experiences, and every one of us is a special, new experience for the universe. To respect this experience, to love the universe, is to love yourself – your ego.

Love, though, is different from attachment. Know that when you are currently confined to

this body and mind, the real you is infinite. The real you, is the... *drumroll* UNIVERSE. Yes! So, by acknowledging that your experience as Jessica or Bob, is as valuable as any other experience. You are not more special than anything else, but we are all just as important.

So today, let's celebrate that we are all indeed, just one fun-loving, curious, playful being – The Universe. And celebrate that we have consciously chosen to incarnate into this ego that we have in this life. Go love, love madly, love truly, love honestly. But don't take yourself so seriously, because the ego can always change. So let's just enjoy what we are now.

Namaste, bitches.

HEMP GARDEN

by Pony

Hemp is a member of the cannabis family but it's an entirely separate plant to marijuana. This cannabis plant won't get you high, but it can make you healthier. Its specific mix of nutrients has sparked claims that hemp may positively affect cholesterol, inflammation and allergies, to name

just a few. Once it's planted in soil, hemp is fast-growing and water efficient, meaning it can thrive even in the driest of landscapes. The Hemp Garden team's mission is to show participants the wide range of usability of industrial hemp, to reintroduce it to the everyday life and to

show that it can be the base of a sustainable and eco-friendly economy. Hemp stems can be used in construction, paper and textile industry. Its seeds are great superfood containing all essential amino acids and has the highest omega-3 content in the plant kingdom. When growing, 1

tonne of hemp absorbs 1.63 tons of CO2 and because it grows much faster than trees, we can say it is the most efficient natural tool to fight against climate change. Hemp can also clean the soil. It literally filters out radiation, heavy metals and other pollutants. It has helped to clean Chernobyl

recently, so it is now safe enough to be visited. Hungary has a deep rooted tradition of hemp production. Before WWI, Hungary had the biggest hemp industry in Europe and with you, beautiful people, we are able to revive it. Throughout the festival, you will be able to learn how to cook with

hemp, how to build cosy houses or make art and how to make comfortable and eco-friendly clothing and jewellery. You can ask about medical cannabis and any related topics too, from our friends at Hungarian Medical Cannabis Association. Have fun, learn more! Come and join us!

Witch House Wonders

Mix your own herb tea!**Ozorian Dust-Catcher with Kata Mersei**

In O.Z.O.R.A acacia, elderflower, walnut leaves are very common to find. Not to mention the light caress as wild thyme, ribwort, and agrimony touches your body while lying on the festival fields and relaxing. These plants heal, help with their colours, smells and provide you with shade even, apart from the many healing effects, of course. At this workshop, you can find out more about their virtues and you can prepare a "Dust-Catcher Tea" for "Ozoritis", an instant help for respiratory problems and a general immune boost. This tea you can enjoy here or take home from this wonderful place to elongate the festival experience. Everybody is welcome to attend!

We provide all the equipment, ingredients and tools, but places are limited, so please make a reservation. All that we use is vegan. During the workshops we are happy to see kids creating with adult supervision.

HAVEN

BE SMART - PARTY SMART

We love seeing happy people having a wonderful time, with big smiles and an ongoing energy level to keep them going throughout the entire week. Pay attention to others, and the signs of your own body that tells you when to take a break or reach out for help - we will be there for you.

Here are some useful tips by the HAVEN crew who is here to get you through the difficult moments, without judgement and with lots of love:

Drink fresh water!

During partying and especially with the heat, your body needs more fluids than usual to replace the missing amount. It is important that the fluid is water, because alcohol drains water from your body.

Take a break, get some fresh air!

You might not feel tired even after long hours of dancing but that doesn't mean your body doesn't need a rest. Take a break once in a while, get out of the crowd to breathe some fresh air and drink fluids to regenerate. Your muscles will thank you the next day!

Eat glucose tabs!

If you suddenly feel faint or start to see dimly, your blood-sugar might be low. The glucose tabs contain fast-absorbing fructose, eat a few and you will quickly feel better.

More is not necessarily better!

If you are using party enhancing substances, try to plan your amount for the evening and stick to your decision! This is important because when under a drug's influence, you will find it much harder to make a conscious decision, plus mixing drugs can push you over the fun state that you are trying to achieve. Just leave the mixing to the DJ! :)

Be honest with yourself!

Is using drugs really a way to help you feel more open and connected, or are you just trying to avoid negative thoughts and feelings, and reducing anxiety? The two are not the same and won't get you to the same place...

CREATIVE COOKERY - WORKSHOPS FOR THE LITTLE ONES

by Blaze

You and your children are welcome to participate and cook together with us at our creative, outdoor fireplace at the Cooking Groove. We will teach the children some inventive methods of making food. We will prepare and eat different kinds of vegan food together each day. Besides that, we are going to demonstrate the kids how to cook, how to run an eco-friendly kitchen, and we will explain to them how to handle and utilize all the particular parts of the vegetables for different purposes. We would like to share with you and your children all the joys of giving and caring, and teach the youngsters the entertaining, creative process of preparing a dish for the others. The workshops will start each day at 10 am, and the lunch will be served at 12:30 pm. The food will contain no milk and no meat, and it will be gluten-free. This way the dishes will be prepared according to a vegan diet, to take care of the little ones with food allergy.

GREETINGS FROM THE TEASHACK

The Teashack is more than a simple teahouse, it is a special place. Not only because of its storybook appearance and atmosphere, but also because when we put our offer together each year, we try to cater for all kinds of demands besides the trinity of serving to refresh, quench thirst and calm nerves. If you visit us, you can find a healing brew for the most typical "festival illnesses" too. Headache, stomach ache, bloating, exhaustion or just the opposite, being too hyped, we can help you. However, so that we can tea-care of the visitors coming after you as well, it's really important that the mugs do not only leave, but also return. WE ASK EVERYONE: PLEASE DON'T TAKE THE MUGS AWAY WITH YOU! Spend a little time with us, anchor yourself for a short while, look around, sip your tea, enjoy every moment of Your little Hug, and before leaving, return the mugs to us. The volunteer tea masters on duty will wash them properly and put them back on the shelf, so that the wonderful little mug you were drinking your tea from can serve to make another Ozorian happy in a matter of minutes after you. Isn't it uplifting to know that you can also be a part of this caring flow?

TEA IS A HUG IN A MUG.
